

REGIONAL BOARD MEETING

State of California
California Regional Water Quality Control Board
Colorado River Basin Region

STAFF SUMMARY REPORT
January 10, 2019, 9:00 a.m.

ITEM: 2

SUBJECT: Proposed Order R7-2019-0008 Waste Discharge Requirements (WDRs) for DePierro Development Corporation (Discharger), Owner/Operator, Self-Service Laundry Wastewater Disposal Facility, Twentynine Palms, San Bernardino County.

PURPOSE: Proposed Order R7-2019-0008 regulates the proposed discharge of laundry wastewater to the Facility's seepage pits in response to a Report of Waste Discharge application received from the Discharger in July 2018.

BACKGROUND:

DePierro Development Corporation proposed the redevelopment of an existing site and structure to be modified for use as a commercial self-service laundry. The site is 0.30 acres with about a third of it being building structures. The business will be owner operated.

CURRENT STATUS:

The Discharger has not started operation yet, but plans to after the adoption of the WDR.

PROPOSED WDR:

The WDR contains prohibitions, specifications, and provisions, and also establishes effluent limitations for flow and total dissolved solids (TDS) increases in the wastewater. The WDR also sets a quarterly monitoring schedule to monitor TDS and MBAS.

ISSUES:

No issues have been identified.

PUBLIC COMMENTS:

No comments have been received from the public, the Discharger, and/or governmental agencies.

RESPONSE TO COMMENTS:

Not applicable.

RECOMMENDATION: Adopt proposed Order R7-2019-0008.
